Web: **www.milspray.com**

Business Size: **Large**

About the Company:

Milspray's Vehicle Wash Systems are a low cost alternative to in-ground military wash racks. These systems allow a unit to possess its own wash facility, enabling it to better maintain mission critical vehicles and equipment. The Above Ground System offers a turn key vehicle wash operation which integrates a pressure washer with a retractable hose. Once set up, operation is simple and maintenance is minimal.

Our Expeditionary Vehicle Wash System is well suited for field use and is completely containerized in an ACA certified quadcon for embarkability. This simple, easy to use system, reclaims and recycles water so that a continuous water supply is not needed. It has also been engineered to require only a small generator as a power source.
